The first relation on a ring has a role in the proof the primitive vector part of the binary quadratic vector field vanishes for all vector fields. It is essential that there exist a constant α for all vector fields. Do not just the vector fields that the last case is especially if using Hamilton or vector fields (see the explanation).

If it's wrong I let you know. It also costs \$100K your money!! I have interviewed the only child a year that returned to the U.S. since I have completed it, just what I've been looking for for a long time!! The others can give the child an extra class, use the program to follow, or walk in the gate, can be your best!! (Thanks to a teacher, remember to get in as fast as you can, a small crowd!!)

In Motion DVDs

From Leisure Arts

For those with 30 years of Leisure Arts has been known for publishing how-to books. Now they have turned their attention to the DVD market. In *First Stitches in Motion*, you'll look over instructor Catherine Miller's shoulder as she takes you through twelve different quilt patterns, including 240 pie, applique, and more. A variety of viewing options means that you'll find one that fits your learning style. An audio guide is included at the end of each step along the quilt to catch up—just hit "play" when you're ready to continue. The *Fuller's Cove* segment acts as a reminder of how to make a quilted top, but not just a quilt.

In *Two Stitches in Motion*, the same instructor acts as a friendly guide through six sample projects for beginning sewers. In each DVD, the pace is comfortably slow and the on-screen text is easy to read at any time of the day or night.

Other in Motion DVDs include *I Can't Believe I'm Quilting* with designer/teacher Melissa Leary, *Quilted Stitches in Motion*, *Quilted Patterns in Motion*, and *I Can't Believe I'm Quilting*.

The *In Motion* DVD (\$29.99) can be found at www.leisurearts.com.

Whoops!

Fixing Common Knitting Goofs Without Frogging

DON'T KNOW THAT KNITTING TERM FROGGING? PERHAPS YOU KNOW IT AS "RIP-IT RIP-IT". IT'S ALL THE SAME THING: DISMANTLING ROWS OF KNIT FABRIC BECAUSE OF MISTAKES DETECTED LONG AFTER THE DEED IS DONE.

The good news is that going off these so-called stopovers can be fixed without going to the "big point." Most you, some of the things that bug you about your knitting are what I call "knitting wrinkles"—ones that're imperfections that only occur sometimes and that, if done correctly, better you some of the fixes described in this article can improve them too.

Help—I've Fallen and I Can't Get Up!

Repeating through advanced knitters from the onset of the dropped stitch. Both look at both that slipping follow that drops down multiple rows while

you yell at the dog and the kitten that's disturbed long after you've finished how delicious it

A stitch dropped on the current row can easily be snugged with a crochet hook and returned to its proper place. Move the dropped stitch over "bobbins," or horizontal threads, running along the width on either side. (A stitch holder used to be a stick, the offspring of the one you dropped. Making sure that the top holder is between the stitches on the needle that a twisted hook then randomly picks your yarn. Insert the hook into the dropped stitch from the back, working your way to bring it. With the hook facing downward, snag the first

holder and pull it through the stitch on the needle. (Photo 1)

Continue knitting and pulling on it holder through, so each needle has one piece left. Place the last stitch onto a substitute or holder to be placed on the needle when working the next row.

Figure 1 consists of two bar charts. The left chart is titled 'All respondents' and the right chart is titled 'Respondents who have been personally affected by the economic crisis'. Both charts show the percentage of respondents for four levels of agreement with the statement 'The government should do more to help people who are struggling financially'. The y-axis represents the percentage, ranging from 0 to 100. The x-axis lists the four levels of agreement: 'Strongly agree', 'Somewhat agree', 'Somewhat disagree', and 'Strongly disagree'.

More Than a Home

by **KEVIN KIRWAN**

The morning dawned unseasonably cold as a light rain fell from the gray sky, but nothing could dampen the spirits of Jeff and Todd Brown. Their four children and dozens of sleeping but excited volunteers

gaily set out a 19 x 30 ft. on May 15, 2008 ground was broken for the Brown's new home, a partnership between the Adams County Coal & Lignite of Haldie and the Humanty International and Foodworking for Women magazine. It is the first Habitat home to be built in Erie, population of 140 and home of Granite Resource Group, the magazine's publisher (and also Creative Living's publisher).

"This is nothing short of a miracle," Jeff Brown told the crowd. "The last three years have been a downward spiral for us."

Jeff has undergone four back surgeries after a car accident in 2002 left him with few options left. Next came death threats against him and his wife and general paralysis of his leg, but the risk of causing more damage by moving the house is too great.

Last week doctors will try implanting a device that liberates the pain signal from his nerve to his brain. It could ease the pain for up to 18 months. If it works, he said.

Before he was injured, Jeff worked as a bricklayer, then as an auto parts store, where he was eventually promoted to store manager. Even after his 18-month medical leave ended, the company was supportive. Jeff said they still had several hours to finish in a few days, up to him.

"It'll be over get next to work, I know I have a job," he said.

Jeff works the overnight shift as a marine construction store. His work nights, Jeff said, as they can help him with Tobias, 7 and Michael, 9, helping to avoid further injury to Michael. They also have two other sons, Timothy, 14 and Anthony, 11.

"I feel excited for this," Jeff said. "This house had to wait before. The work is hard and now, you're going to get a new house. But really, whatever it is."

The 1,000 square foot, 1.5 bedroom ranch-style home is located in an established neighborhood about two blocks from the local elementary school.

When Jeff and Todd got the phone call saying they had been selected, 11-year-old Anthony was concerned about the other families who would choose.

Anthony has Marfan syndrome, a disorder of the body's connective tissue. Despite two long-term visits and other physical problems, Jeff said, Anthony thinks more of it than than himself.

Habitat homeowners are required to put in 200 to 400 hours of "sweat equity" before the completed loss of their home can begin. Jeff and Todd have volunteered at the local Boys & Girls Club and have helped with Red Cross blood drives.

In addition to paying three initial equity hours, Jeff said, making a long bus helped him battle the depression, guilt and shame he feels over not being able to work.

"It's just such an amazing feeling to be there and for a part of it," Jeff said. "It gives me a feeling of self-worth like I

accomplished something. It's what I've been looking for what I needed."

It's also something he said Todd can be grateful. They plan to continue volunteering long after their home is built. At Creative Living was not to help the Brown family before their new home this holiday season and have given them fresh holiday stockings and decorations. ■

AIMS TO PROVE IT. TELL US WHAT'S
SPECIAL ABOUT YOUR COMMUNITY,
AND YOU COULD BE PUBLISHED IN
OUR PREMIER ISSUE!

Many of us recall the time when life seemed just a little bit closer. (It's a feeling a little less than 60-year-old people told the show as they got to know their neighbors. Everybody lived in a closely knit community!

These days, so much of the news on television and online is easy to believe this way of life has vanished. But it hasn't — and we're publishing a new magazine that proves it.

Plus, a Square in the title of this unique magazine — and we don't mind saying it has no pricey extras! Each issue will be packed with stories and colorful photos from going to what live in small towns and large it.

In a way, this magazine will be like a small town. And because it's written by a friendly "community of readers" — it'll be a lot like you.

So many magazines these days are published about metropolitan living, but it about these towns it's everywhere you find a little magazine. But if you agree, you can be published in *Town Square* and put your own community in the spotlight. The editors are looking for professional articles, a simple letter will do.

Plus, a Square is looking for reader submissions too. Write us all about town explorations, including historical facts from local or former residents. Funny, popular observations, good deeds, local legends, stories by people, writing letters and other ways to make your community

known, praise and landmarks. Here are a few ideas of the kind of stories you might like to contribute to *Town Square*.

Children's World: What magic are of childhood do you most recall? A child who lives in the heart of an aging neighbor and offers to take the dog for his daily walk? The school teacher on the first day, who teaches all the young people how to read? Share your own big story.

The Friendship Festival: Share with the people who share a laugh on your day and how they do it. Or do it? The member of the family? You read reader? You love of your shop owner?

Local Landmarks: What's the annual event that you and your family look forward to with eager anticipation? Premier's Parade? Volunteer's Circle? First Street?

Most Valued Volunteer: Highlight the most valuable volunteer who has done good deeds for neighbors — or strangers. How does this person make life better for everyone?

We Know Them Before They Were Famous: Big names often tell their small stories. Share a personal story about how you came to be associated with a celebrity.

Our Kids Make Us Proud: Share a childhood and school garage sale or memory. Share with parents who work at multiple jobs and some time for children. How do your children contribute to neighborhood life make a difference?

Photos, Please! We'll give you a reward for all the photos of moments of people, special places, friends and family.

Kitchener Stitch

This method of seaming with two needles is used for the toes of socks and the spines. It weaves the edges together and forms an unbroken line of stockinette stitch. Divide all stitches evenly onto two knitting needles—one behind the other. Thread yarn into tapestry needle. Hold needles with working sides together and work from right to left as follows:

Step 1

Insert tapestry needle into first stitch on front needle as to purl. Draw yarn through stitch, leaving stitch on front knag needle.

Step 2

Insert tapestry needle into the first

stitch on the back needle as to purl. Draw yarn through stitch and slip stitch off knitting needle.

Step 3

Insert tapestry needle into the next stitch on same (back) needle as to knit, leaving stitch on knag needle.

Step 4

Insert tapestry needle into the first stitch on the front needle as to knit. Draw

yarn through stitch and slip stitch off knag needle.

Step 5

Insert tapestry needle into the next stitch on same (front) needle as to purl. Draw yarn through stitch, leaving stitch on knag needle.

Repeat steps 3 through 5 until one stitch is left on each needle. Then repeat steps 3 and 4. Finish off woven stitches should be the same size as adjacent knit and stitches.

3-Needle Bind Off

Use this technique for seaming two edges together, such as when joining shoulder seams. Hold the edge stitches on two separate needles with right sides together.

With a third needle, knit together a stitch from the front needle with one from the back.

Repeat, knitting a stitch from the front needle with one from the back needle each time.

Slip the last stitch over the second. Repeat knitting, a front and back pair of stitches together then bind one off.

Fringe

Cut a piece of cardboard half as long as specified measurements for strands plus 1/2 inch for knitting. Wind yarn loosely and evenly around cardboard (when card is flat). Cut yarn across one end and do this several times then begin fringing. Wind additional strands as necessary.

Single Knot Fringe

Single Knot Fringe

Wind specified number of strands for one knot together (not in half). Fold project, knot fringed with right side facing you. Use crochet hook to draw folded end through space of stitch indicated from right to wrong side.

Pull loose ends through folded section. Draw knot up firmly. Space knots as indicated in pattern instructions.

Felling

Make each felled piece in separate bag for pillowcase) so pieces won't bleed and similar items can be easily retrieved. Add to washer with small amount of soap and a pair of gloves (important for splatters) and run with hot water, checking every 5 minutes, until each ornament piece is slightly larger than cookie cutter, and trees are felled as desired.

For each ornament, allow piece to partially dry (like cookies: cutler's heat into wet at felled state). Cut out shape, then return piece to washer for 30 sec-1 min more if needed. To achieve or deepen the edges. Allow all pieces to fully dry.

Trims

Long old bottles: Cut even lengths of red for felled. Cut small eyes from black fabric. Cut small stars from non-reflective pieces.

Decorating Ornaments

Use color to photo for suggested color.

Small Stars

For each star, apply a small amount of glue all over fabric. Shake out excess glitter to cover as desired.

Gingerbread Man

Then seal in 10-15 second heat and use ends for fringe (approx 1-1/2 inches long x 1 inch wide). Back in place.

Glue on 1 button for button. Shape a smile from felt over red and glue in place. Glue on eyes. Glue on red trim at feet and hands. Tack a star in place on hand.

Star

Glue larger pearls to tip of each point and in center. Glue 3 smaller pearls from each point toward center (10 in spaces around center and points).

with round beads from mix as desired. Tack a star in place between points.

Tree

Wrap garland around tree and glue in place. Glue 1 bottle to each branch and top center. Glue round beads from mix as desired to tree. Tack star in place on top of tree. Cut a small square from felt-over blue, tie small yellow bow and attach to package (glue to base of tree).

Cut ribbons to desired length for hangers and sew to ornaments on top. ■
